RAPID RESPONSE TO GROSS ODORS

When your living or workspace has been invaded by gross odors, like smoke from a fire, tobacco, cannabis, decomposing waste, body odor, mold, mildew, wet pets or a run-in with a skunk; off-the-shelf masking agents just won't cut it. Our two kits are designed to provide total relief from odors in full rooms (of up to 1000 ft³) to small spaces (like closets, totes or storage bins) within just 2-4 hours. Simply remove the contents from the jar, fill it with water, deposit the odor-eliminating, gas-generating tablet and leave the space sealed up tight. Once the kit has done its work, simply replace the lid, remove it from the space, and pour any of the remaining liquid into a toilet and flush. Your odors will be gone!

MAINTAINING CLEAN AIR

Sometimes there is just no avoiding activities that generate odors. Sports lockers, gym bags, restrooms, composting areas, campers, trunks and pet kennel areas. For these spaces, we offer THREE options for curing your foul air and keeping it clean. As an added benefit, each of these options are also great in coolers, refrigerator lockers, work spaces and sick rooms for maintaining the best quality air for fruits, vegetables and convalescence. Each kit is equipped to keep the fresh air coming for months on end.

ODOR CONTROL ONE

One Tablet For Cleaning & Deodorizing

ELIMINATING THE SOILS THAT DEVELOP ODORS

Some of the very worst odors are generated from soiled surfaces, and believe it or not, too many cleaners are not really designed to remove soil, but just to spread fragrances. They actually end up attracting soil! Our **Odor Control ONE Tablets** create a cleaning solution that breaks down the proteins and other materials that feed the bacteria that generates the odor. Eliminate the food, eliminate the bacteria, eliminate the odor—it's just that simple. This kit includes a mixing bottle, storage cap, flip top, trigger sprayer, (6) tablets and (24) compressed cloth wipers. A tremendous value.

ODOR CONSUME SPRAY

CONSUMING SOFT SURFACE STAINS & ODORS

Our **Odor Consume Spray** is designed for the soft surfaces in your world: carpets, upholstery, cushions, pet beds, blankets and clothing; but still focuses on eliminating the odor, not just covering it up. Each bottle of **Odor Consume Spray** contains billions of enzymes that find the organic material that causes stains and odors and eat it up! Pre-spray food stains on laundry, treat pet accidents or spills on carpeting or upholstery. It can eliminate it all! No rinsing required, just spray, let sit and odors disappear.
